

Year 10 KNOWLEDGE ORGANISER

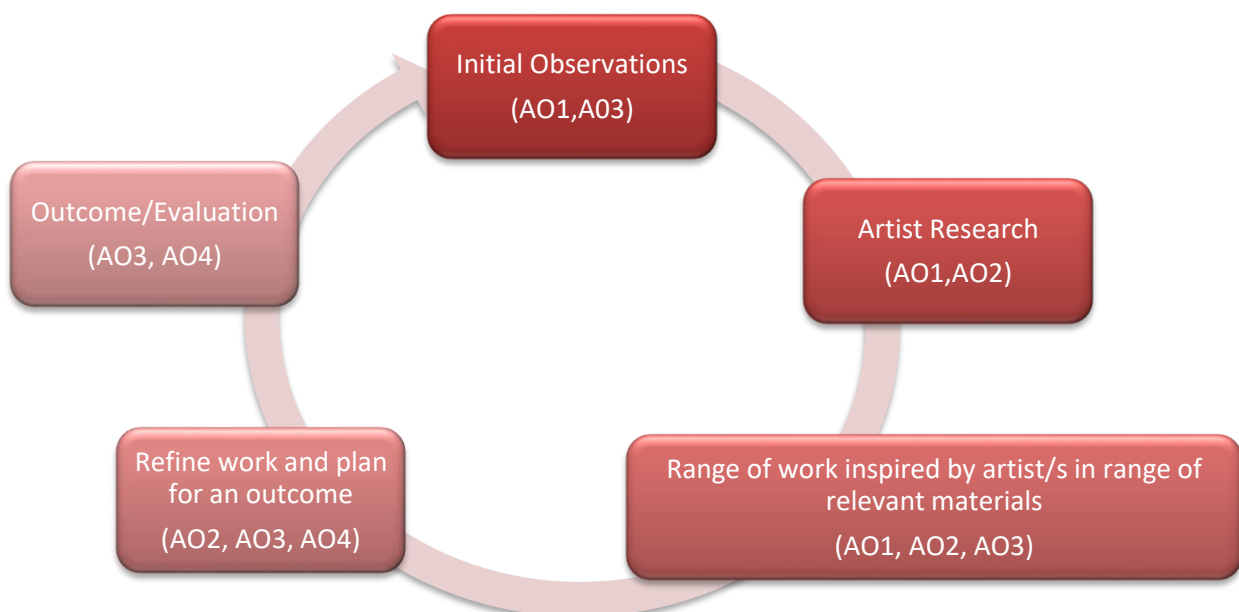

PROJECT 1 – The first project in year 10, students will be allowed to produce their own theme/topic. This MUST be teacher approved and often produces very interesting work and allows teachers to gauge the students interests, strengths and weaknesses in the subject.

Students will examine three specific areas within their theme. For each area, students will produce detailed artist research, a body of work in a range of materials, investigations and a large outcome piece. Each of these provide the necessary evidence for the assessment objectives which students MUST also learn as this is what we are marking them against (see table and chart below).

PROJECT 2 – The second project will operate exactly the same but this theme will be selected by the teacher and will allow students to learn and practise new techniques, engage in workshops and refine their skills. Students will be targeted to improve on areas they struggled with in their first project and will be pushed further in terms of meeting the assessment criteria.

Assessment Objectives

AO1	Develop ideas through investigations, demonstrating critical understanding of sources.
AO2	Refine work by exploring ideas, selecting and experimenting with appropriate media, materials, techniques and processes
AO3	Record ideas, observations and insights relevant to intentions as work progresses
AO4	Present a personal and meaningful response that realises intentions and demonstrates understanding of visual language
