

Geography Knowledge Organiser – Year 11 – Term 1a – Challenges of an Urbanising World

1		Urbanisation			Megacity			Migration	
	The increase in the percentage of people living in towns and cities, causing them to grow.		A very large city with a population of over ten million people.		The long-term movement of people within or between countries				
2		Burgess Model			Land Use			Regeneration	
	A descriptive urban land use model that divided cities into concentric circles.		The infrastructure and function of the land in an urban area.		Reviving the economy or environment of a run down area.				
3		Site			Situation			Mumbai	
	The actual location of a settlement on the Earth.		The location of a place relative to its surroundings and other places.		An emerging megacity in India.				
4		Service Sector			Conurbation			Dharavi	
	The commercial services that support the production and distribution process.		An area in which a number of existing urban areas have grown and merged.		A large area situated between Mumbai's two main suburban railway lines.				
5		Chawls			Slum			Squatter Settlement	
	A large building divided into many separate tenements, offering cheap, basic accommodation to labourers.		A run-down and often overcrowded urban area with poor quality housing and services.		A residential area which has developed without legal claims to the land.				
6		Sustainable			Microfinance			Monorail	
	Able to continue without causing damage to future generations.		Tiny loans to help the poor start businesses and escape poverty.		A railway in which the track consists of a single rail or a beam.				

## Question Grid
