

Geography Knowledge Organiser – Year 7 – Term 1a – What is Geography?

1		Physical Geography			Human Geography			Global Citizen	
	All about what our planet is like; it is the natural features of the Earth.		How and where we as humans decide to live.		The idea that one's identity transcends geography or political borders.				
2		Hemisphere			Equator			Continent	
	Half the Earth as divided by the Equator.		0° line of latitude around the middle of the Earth.		Large area of land of the Earth's surface.				
3		Atlas			Cardinal Point			Latitude and Longitude	
	A book of maps or charts.		The main compass points: North, East, South, and West.		Imaginary lines drawn on an atlas that give co-ordinates of countries and places.				
4		GIS			OS Map			Symbols	
	Geographic Information System – a tool to analyse geographic data.		Maps show the features of a landscape from a bird's eye view using symbols.		Images used on a map to give information easily and add detail.				
5		Eastings			Northings			Grid Reference	
	The numbers at the bottom of a grid reference.		The numbers on the left of a grid reference.		A map reference indicating a location in terms of vertical and horizontal grid lines.				
6		Scale			Distance			As the Crow Flies	
	The ratio between map distance and real-world distance.		The length between two points.		Distance in a straight line.
